

sample\_IYB1\_R1\_fastq (total reads: 131918)

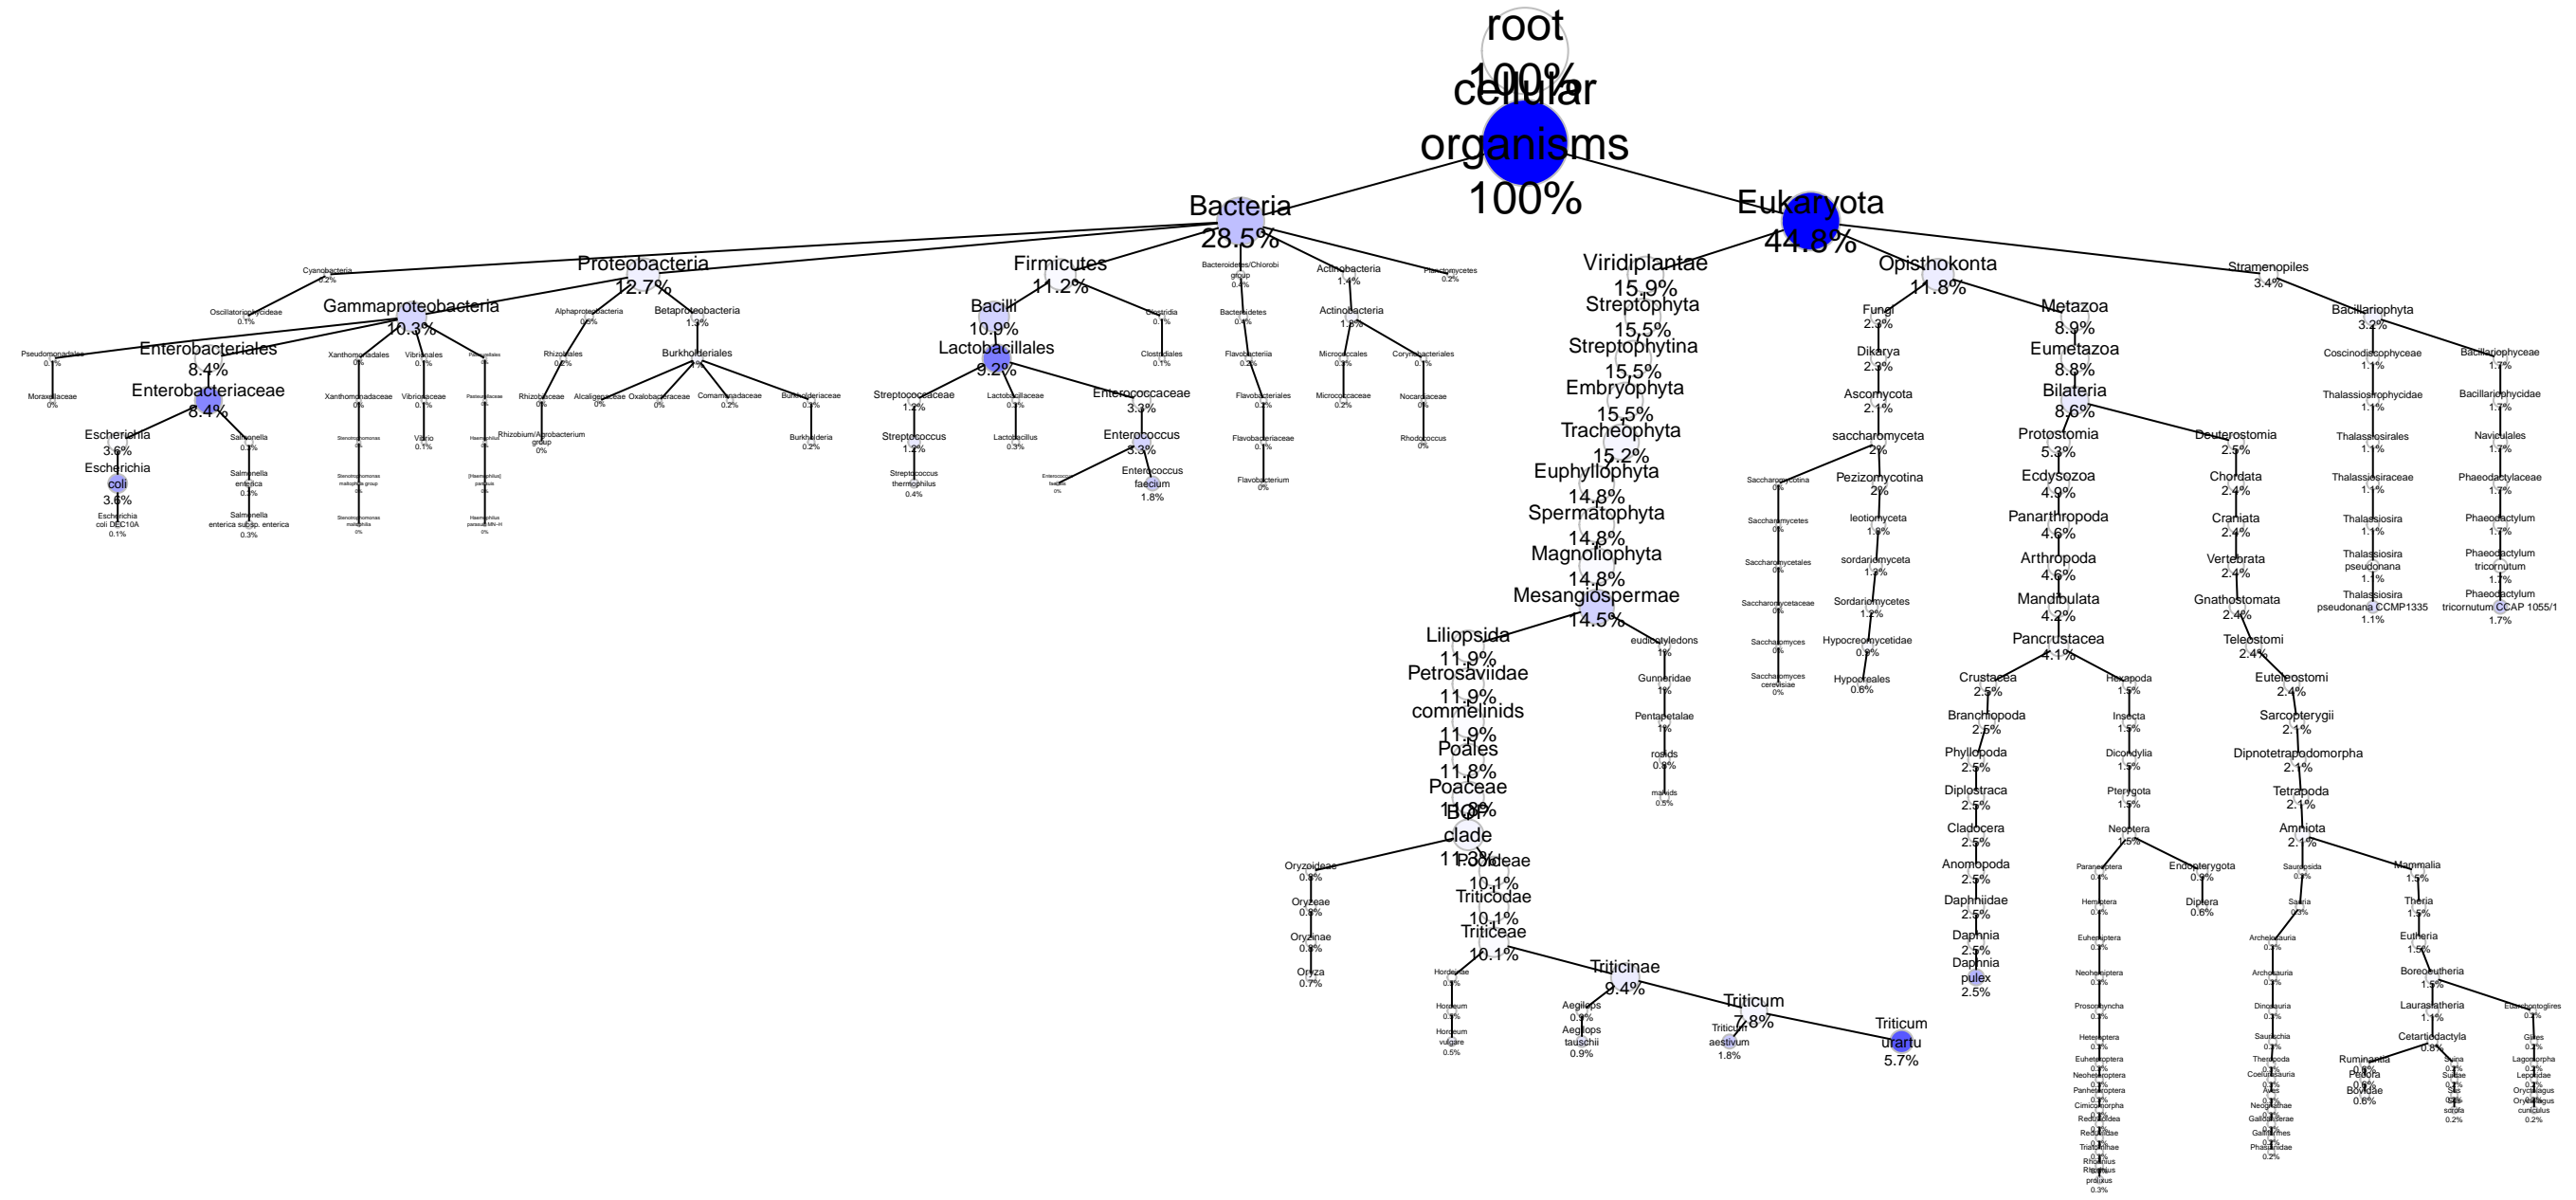

A Venn diagram illustrating the overlap between three datasets: root, cellular, and organisms. The root and cellular datasets overlap by 100%, and the cellular and organisms datasets overlap by 100%.

A Venn diagram with two overlapping circles. The left circle is labeled 'root' and the right circle is labeled 'cellular organisms'. The intersection of the two circles is shaded blue and labeled '100%'. The 'root' circle is also labeled '100%' and the 'cellular organisms' circle is also labeled '100%'.
